Quin Richards

EXPERIENCE DESIGNER · PROJECT COORDINATOR

Los Angeles, CA · quinrdesign@gmail.com · linkedin.com/in/quin-richards · quinrichards.com

Experience designer and project coordinator who turns undefined problems into shipped experiences. I work across game design, UX, narrative, and production — from a greenlit internal platform at The Walt Disney Company, to games launched on Steam, to live esports broadcasts on Twitch. I do my best work when the problem is still being defined.

EXPERIENCE

The Walt Disney Company — UX Designer & Rapid Prototype Engineer OCT 2025 – APR 2026

- Identified an unmet workflow need for writers across Disney's creative banners through self-initiated research.
- Designed and built a working prototype that was greenlit and company-backed within weeks of first pitch.

Cursor · Base44 · Figma · Notion

Beamdown (Steam) — Lead Designer & Production Coordinator AUG 2024 – MAY 2025

- Led design across a 30+ person team from pre-production through public Steam launch.
- Owned combat, boss, and narrative design direction alongside schedules, deliverables, and cross-discipline alignment.

Unity · Figma · GitHub · ClickUp · Miro

University of Utah Esports — Program Coordinator & Broadcast Producer AUG 2022 – MAY 2025

- Coordinated live tournament broadcasts for a 20–30 person team, streaming regional events to a live Twitch audience.
- Previously built and coached a competitive Rainbow Six Siege program at Santa Barbara City College.

OBS · Twitch · Discord

Riot Games — Research Team Lead (student research program) JUN 2018 – JUL 2018

- Led a student research team feeding structured findings into League of Legends development.
- Coordinated deliverables across QA, social, and marketing; delivered a final competitive-analysis piece.

SELECTED PROJECTS

Eldritch Confection
Game, Combat & UX Designer — 2D side-scroller shipped with a 5-person team in one month.

My Brother's Lightkeeper
Designer, Narrative & Producer — two-person narrative sailing game about community and hope.
